

All Safe Fence

All Safe Fences

There are many different types of swimming pool fences including wrought iron pool fence, wood pool fence, vinyl pool fence, etc. etc.. At All-Safe, we believe that removable mesh pool fence is ideal due to its transparent mesh, climb resistant nature, and removability. This type of swimming pool fence has been used for several decades to help prevent drownings. Mesh swimming pool fence creates a barrier between your house and your swimming pool while still allowing a clear view of your pool. Mesh pool fence is easily removable in minutes by an adult any time that children will not be present. When the swimming pool fence is not in use, the removable pool fence offers some unique and desirable features as a solution to preventing infants and toddlers from entering the pool water unseen or unheard. Most pool owners leave their removable pool fence in place if there is any possibility of unwanted access by young children. However, the pool fence can be easily removed in minutes and rolled and stored during occasions when a barrier is not desired. Unlike, most forms of permanent swimming pool fence, All-Safe® removable pool fence is climb resistant and it's transparent nature allows you to have a clear view of your pool. Frequent swimmers appreciate the convenient and quick adult access allowed by a pool fence as opposed to other types of barriers that are more time consuming and must be replaced after each pool use.

Safety, selection, savings and service are among the many reasons for you to put your confidence in your All-Safe® pool fence dealer. Safety is our number one concern and our swimming pool fence products have been developed and tested to meet standards that will provide you with only the highest quality. All-Safe® manufactures its swimming pool fence in a huge selection of styles and strengths with features that are unavailable elsewhere. Our removable self-closing gates and EZ-close handles are among these unique features. An All-Safe® estimator in your area will be pleased to come to your pool to discuss your safety needs with you and to show you why an All-Safe® pool fence is your best value. Your pool fence will be installed by trained professionals and will come with an outstanding warranty. You have made a responsible decision in purchasing a pool fence and a wise decision in choosing All-Safe®.

POOL FENCE: Options

There are many options to consider when choosing an All-Safe removable pool fence. The All-Safe mesh pool fence is available in an assortment of colors, heights, mesh types, poles reinforcements, border material, etc.

Removable pool fence is typically available in 48 inch and 60 inch heights. Most pool owners choose 48 inch high, however there are many areas where agencies such as fostercare, daycare, adoption, building departments, etc. require the mesh pool fence to be 60 inches tall. Please check with your local authorities for more information.

All-Safe removable pool fence is offered in several colors including black, brown, green, tan, silver and white. Darker colors absorb light while lighter colors reflect light, therefore, we strongly recommend black, brown or green mesh pool fence rather than tan, silver or white. The color of your removable pool fence will affect its transparency.

There are mesh options to consider when choosing a removable pool fence. The two most common types of removable pool fence mesh are vinyl-coated polyester and pvc coated polyester. All-Safe removable pool fence support poles are available in different styles for different types of installations. There is even a choice of borders when choosing your mesh pool fence.
