

Add Benches & Steps

Just because you have an old style pool doesn't mean we can't make it shallower. Or maybe you want us to redesign the steps. We are putting in Caribbean Benches, which is a large step 7' by 7' with an umbrella holder in the middle. This bench sits in 11 inches of water, shallow enough to put a couple of chairs and and hang out with the little ones. Don't forget you will now be in the shade and out of the sun!
